Answer each of the following questions in maximum of 2 sentences:

    1- What are the four most common types in C?

    2- What is the value of A after these expressions (A, B and C are integers):
        B= 2;
        C = 3;
        A = B+C*4;

    3- What is the value of A after these expressions (A, B and C are integers)?
        B = 2;
        C = 3;
        A = C > B;

    4- What A += B means?

    5- What is the value of A after these expressions (A and B are integers)?
        B = 10;
        A = B++;

    6- What is the value of A after these expressions (A and B are integers)?
        B = 20;
        A = ++B;

    7- What is the value of A after these expressions (A, B and C are integers)?
        B = 5;
        C = 3;
        A = C == 3 && B < 3;

    8- What does the keyword "const" do in C language?
